PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Engineer with a solid foundation in Java. Currently working as an Assistant System Engineer at Tata Consultancy Services (TCS), where I support and develop applications, including handling dynamic footer generation for Mars applications in both expert and standard modes. Experienced in end-to-end application support, resolving critical issues, and collaborating with cross-functional teams to deliver high-quality solutions. Proficient in ServiceNow for incident tracking and monitoring. Passionate about continuous learning, problem-solving, and contributing to impactful software development projects. Currently enhancing Data Structures & Algorithms (DSA) skills, having solved 250+ coding problems.

EDUCATION

Bharath Institute of Higher Education & Research, Chennai, India
Bachelor of Technology: Computer Science & Engineering – 8.9 CGPA
June 2020 – April 2024

Telangana State Residential Jr. College, Madnoor, India
12th grade -- HSC -- 94.7%
June 2018 – March 2020

Manasa High School, Telangana, India
10th grade -- SSLC -- 9.0 GPA
March 2017 – March 2018

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Assistant System Engineer
Oct 2024 – Present
• Managing Footer Applications for Mars projects, enabling seamless generation of dynamic footers in both expert and standard modes used across various internal platforms.
• Providing end-to-end application support, troubleshooting complex issues, and resolving user-reported tickets within defined SLAs.

• Solving user issues for the MTD application, ensuring minimal downtime and optimal functionality.
• Monitoring ServiceNow dashboards to proactively identify and address incidents or service disruptions.
• Offering secondary support for SharePoint, assisting in maintenance, updates, and user queries.
• Performing server recycle activities for Horizon to maintain system stability and performance.

PROJECT EXPERIENCE

Banking Management System – Java Full Stack Project
• Developed a Banking Management System using Java Full Stack, enabling administrators to perform CRUD (Create, Read, Update, Delete) operations on customer and account data.
• Implemented front-end using HTML, CSS, and JavaScript for a user-friendly interface.
• Utilized Java for backend logic and SQL for database management to ensure seamless data handling.
• Enhanced system functionality by integrating secure login and role-based access control for administrators.

TECHNICAL SKILLS

- **Languages:** Java, C#, SQL, JavaScript

- **Web Technologies:** HTML5, CSS3, Bootstrap

- **Tools & Frameworks:** Git, Eclipse, JDBC, ServiceNow

- **Databases:** MySQL, SQL Server

- **Development Practices:** Debugging, Code Reviews, Problem Solving

- **Data Structures & Algorithms:** Currently learning, solved 250+ coding problems

- **Interpersonal Skills:** Effective Communication, Leadership & Problem Solving

- **Languages Known:** English, Hindi, Telugu
